Tips and Tricks!

Sometimes not knowing resources exist is a barrier to success.

1

Read your syllabi thoroughly!

2

Visit the Academic Achievement Center!

3

Learn how YOU study and prepare!

1. Read your syllabi thoroughly

A syllabus can be a guidebook or road map for the semester, and it can help you if you get lost. It can also help you understand the general subject and field you're studying.

- You can find the syllabus in the files tab of your course's page in Canvas!
- Dedicate time to put ALL of your assignments, tests, and days off into your planner or calendar!
- It is important to understand what is expected of you this semester!

2. Visit the Academic Achievement Center

K-State strives to ensure all learners have the opportunity for academic success by providing guidance through the learning process.

- Academic Coaching provides free academic guidance to create and achieve an academic success plan based on personal goals!
- Free Tutoring focuses on the success of the learning process as a whole not just the end result!
 - 2nd floor of Hale Library
- Success Tools are accessible on the [AAC Website!](#)
 - Pick up a FREE planner in room 101 of Holton Hall

3. Learn how YOU study and prepare

Good study skills can increase your confidence, competence, and self-esteem. By developing effective study skills, you may be able to cut down on the numbers of hours spend studying, leaving more time for other things in your life.

- Utilize the tools referenced on the [AAC website](#)!
- Find study groups in each of your classes!
- Find the best methods for you to manage your time!
- Find methods to get you motivated!
- Plan ahead and try not to cram!
- Most importantly, take care of YOU!
