Hi All,

Below please find an update of our seminars and job talks.

Matt Kirk will bring you more details about the job talks later.

Two more dates (Feb 13 and March 6) are available for seminars. If you want to claim these dates, please keep me updated.

I wish you all a great start for the spring semester!

**Subject:** Update: seminars in Spring 2025

Hello All,

Happy New Year!

Here is an update about our geology seminars in Spring 2025.

Following Matt B.'s suggestion, I have blocked all the time slots after the spring break for thesis proposal and defense.

Dr. Sahoo ( <https://www.linkedin.com/in/swapansahoo/> ) will be giving us an online talk on Jan 30.

The date of 01/23/2025 is still available. Please let me know if you want to invite anyone.

The time slots in February and March are currently temporarily blocked for job talks. One or two time slots might be released and available once we finalize the schedules of job talks. If you have any guest speakers that are flexible about the schedule, please consider inviting them and also keeping me updated.

Thanks!  
Huan
