

ADHD EVALUATION AND TESTING

ADHD evaluation and testing within Lafene Health Center and/or Lafene CAPS requires multiple appointments.

01

The Case Manager will contact you via phone or through secure messaging and review the process, including the cost of testing. Currently, the cost is \$416 if performed by Lafene Health Center. This charge may be billed to your health insurance or you may request self-pay option. The cost for computerized testing performed at Lafene CAPS cannot be filed to insurance and only has a self-pay option.

02

After you confirm ADHD testing is desired, an appointment will be made with a mental health provider to go over symptoms, relationships, educational history, substance use, family history, etc. A waiver must be signed at this appointment and the test will be administered.

03

A return appointment will be made with the same provider where you will sign a waiver, and review the results/report of the testing and recommendations. If the plan of care includes medication, you will follow up with a prescribing provider to continue care/medications.

If there are no appointments available for testing at LHC or CAPS, alternative options to complete testing outside of LHC include:

- Center for Psychoeducation Services (KU) - 785.864.7021
- KU Department of Psychology - 785.864.4112
- Washburn Psychological Clinic - 785.670.1750
- Flint Hills Neuropsychology - 785.236.1180

On-campus resources that might be helpful:

If ADHD testing is completed outside of Lafene and you want to continue your care here, then records (evaluation and testing) will need to be sent to us (fax: 855.618.0188) for review by our psychiatric nurse practitioner.

If you have questions about the requirements for diagnosis and treatment at Lafene, please read our [!\[\]\(b4eeff342f60cc7bcd67d869b4fedca2_img.jpg\) ADHD policy](#).

Please let us know if you have any additional questions.
