

**Homework for the 4-day weekend****Name:** \_\_\_\_\_**DUE Tuesday, February 18**

Pick a movie to watch – preferably a fantasy, action, or Disney/Pixar movie. The only requirement is that it must have a film score, not just a soundtrack! It would be best if it were a movie you have seen before.

Watch the movie, and pay attention to the music! While watching, think about how the music may have affected your emotions during the scene or added to the plot. Pick out one scene that you felt was really effective and write 4-5 sentences about it on the back. 1 or 2 sentences should describe the scene and then tell me why the music was important to that scene. Feel free to talk about what the music did (high or low, clashing, tempo, dynamic, instruments, etc).

When it's over, find the film score composer either in the credits or look it up online. Is it someone we have talked about?
