

Allen Research Lab

Dr. Shalene Allen is seeking motivated students to join her lab at Kansas State University (KSU) in the department of Psychological Sciences!

I work with vulnerable and high-risk occupations. Below is a brief overview of my research.

Workplace Support Behavior

Investigating predictors and outcomes beyond general co-worker support (e.g., co-worker support for work-family)

Organizational Interventions

Implementing and applying workplace support interventions to improve employee personal, work and family outcomes

Occupational Health Psychology

Understanding organizational antecedents to employee mental and physical health, such as anger, burnout, stress, and work-nonwork factors

Quantitative Methods

Advancing workplace intervention evaluation and measurements of workplace support behavior

Prospective students interested in joining my research lab please reach out!
