

Inaugural Biosafety and Biosecurity Summit

Oct. 10-11

We are excited to invite you to the Inaugural Biosafety and Biosecurity Summit, taking place on the K-State Manhattan campus and virtually via Zoom. This groundbreaking event will bring together researchers, subject matter experts, and industry leaders to discuss key challenges and advancements in biosafety and biosecurity, while also exploring emerging technologies in life science research.

EVENT HIGHLIGHTS

Visit <https://www.k-state.edu/safety/programs/lab/biosafety/> or scan the QR Code to view the full event schedule. The summit is hosted in the College of Engineering with virtual attendance available for some presentations.

Keynote Address

Learn about "Transcriptomics for Biomarker Discovery" with Dr. Laura Miller, Associate Professor of Veterinary Virology and Past President of the American Association of Veterinary Immunologists on October 10th at 8:30 am.

Engaging Presentations

Attend presentations by subject matter experts from the FBI, NBAF, Labconco, and the Colleges of Agriculture, Arts and Sciences, Engineering, Veterinary Medicine, and the K-State Office of Integrity, Compliance and Security. Poster presentations represent interdisciplinary research using emerging technologies across the KSU portfolio.

Networking Opportunities

Connect with professionals from diverse backgrounds in life sciences and interdisciplinary research, diagnostics, biosafety, and biosecurity to foster collaboration and innovation.

Laboratory Resources and Support

Visit the Fisher Scientific vendor fair to learn more about available lab equipment and safety resources for laboratories.
