

# Join Us!

## K-State New Faculty Institute

A program for newly hired faculty members at Kansas State University. All sessions provide an opportunity for networking, relationship-building and professional development.

### **Topic: Reflection and Workshop**

**Monday, August 31, 2020 - 11:30am-1:00pm**

**Zoom:** <https://ksu.zoom.us/j/98449695989>

You are two weeks into the semester and presumably learning a lot...about teaching socially distanced, hybrid, or online. You are learning about K-State students. And, you are learning about teaching during a pandemic. Join this session to connect with other new faculty to reflect on the first two weeks. We will identify what is going well and what you want to focus on moving forward. Bring your questions about Canvas, Zoom, and other technology - instructional designers will be there to consult with in small breakout groups to share ideas on course design and technology to assist in your success.

[Add this event to your calendar and RSVP](#) by Monday, August 31<sup>st</sup> at 10am.

### **Topic: Time with Provost Charles Taber & Networking**

**Wednesday, September 23 - 3:30-5:00pm**

**Zoom:** <https://ksu.zoom.us/j/95926875006>

New faculty are invited to spend time with Provost Charles Taber, Kansas State University's chief academic officer and executive vice president. Provost Taber will share information about himself and the work he does, provide an overview of the organizational structure of the university and the role of faculty, and updates related to K-State. This is an excellent opportunity to interact and ask questions. Following his presentation, we will engage in casual networking from 4:30-5:00pm.

[Add this event to your calendar and RSVP](#) by Wednesday, September 23 at noon.

### **Topic: What do K-State students need from faculty?**

**Tuesday, October 27 - 3:30-5:00pm**

**Zoom:** <https://ksu.zoom.us/j/98536057239>

This session will be an opportunity to engage with current students to address the following questions (and more!):

- How do we increase engagement and participation in the classroom?
- How do students like to use technology while learning?
- How do you become a teacher that students love to learn from?
- How do we get buy-in from students in class? And get past the "what's on the test" mentality?
- How do we collaborate with our students in the learning process?
- What challenges and opportunities do students face today?

[Add this event to your calendar and RSVP](#) by Tuesday, October 27 at noon.
